

Welcome to the Mathematics Department

Within our department we have high expectations for all pupils and encourage every young person to aim high. Department staff make mathematics and numeracy relevant for pupils whilst ensuring that they are challenged and working at the appropriate pace in all lessons. We encourage our young people to be confident by developing skills for life and work through engaging lessons and STEM projects. All pupils from S1-S6 receive a weekly formal homework as well as consistent regular homework. We constantly monitor and track the progress of all pupils in our department to ensure we are intervening early to get pupils back on the path to success to ensure they reach their full potential.

Fiona MacKinnon
Faculty Head of Mathematics & Technical

Department Staff

F MacKinnon (FH)
C Brown (DHT)
K Byars
L Carlin
A Hinkley
P. Robertson

Available Courses

S1: BGE Level 1, 2, 3
S2: BGE Level 2, 3, 4
S3: BGE Extension Courses 3, 4 & 5
S4: National 3 Applications of Mathematics, National 4 Mathematics & National 5 Mathematics
S5/6: Higher Mathematics, National 5 Mathematics & National 4 Applications of Mathematics with National 5 Numeracy.

Homework Policy

Nightly homework is given on a regular basis and all classes receive weekly formal homework based on their working level. Formal homework is a key strategy in raising attainment as areas for development are recorded, which teachers use to plan and prepare lessons that target these areas.

Supported Study

Monday – Higher & National 5
